RE: GCT Canada: Terminal Gate Efficiency Fee Annual Rate Increase - Reminder Notice

As announced at the conclusion of the [Normalized Truck Reservation Fee Pilot Program](#) in 2019, GCT Canada now annually indexes the Terminal Gate Efficiency fee to labour costs. To reflect an increase in labour costs, effective April 1, 2021, the Terminal Gate Efficiency Fee is set to \$51.00.

Terminal Gate Efficiency Fee structure continues to include:

1. Normalized reservation fee to all day and night appointments for full containers
2. No reservation fee for all empty container transactions
3. Incentivized double-ended moves with a 10% rebate for drayage companies that complete more than 100 moves in a month and achieve over 40% double-ended moves (to-date, GCT Canada has issued over \$170,000 in rebates)

GCT is always looking for ways to optimize our service in the gateway and improve our service to supply chain partners. If you have questions or feedback, please contact our Operations Support Team at operations-support@globalterminals.com or 1-888-342-3385.

Thank you for your cooperation and partnership. Please continue to stay safe and stay healthy.
