GCT Canada: Terminal Gate Efficiency Fee Annual Rate Increase

As announced at the conclusion of the Normalized Truck Reservation Fee Pilot Program in 2019, GCT Canada now annually indexes the Terminal Gate Efficiency fee to labour costs. Effective May 1, 2022, the Terminal Gate Efficiency Fee is set to \$53.00 to reflect an increase in labour costs.

Terminal Gate Efficiency Fee structure continues to include:

- Normalized reservation fee to all day and night appointments for full containers.

- No reservation fee for all empty container transactions.
- Incentivized double-ended moves with a 10% rebate for drayage companies that complete more than 100 moves in a month and achieve over 40% double-ended moves.

GCT is always looking to optimize our service in the gateway and improve our service to supply chain partners. If you have questions or feedback, please contact our Operations Support Team at operations-support@globalterminals.com or 1-888-342-3385.

Thank you for your cooperation and partnership. Please continue to stay safe.

***RESOURCES:**

- **Vessel schedules:** For changes to vessel estimated time of arrival (ETA), export receiving days (ERD), and import last free day (LFD), check the [GCT Deltaport](#) or [GCT Vanterm vessel schedule](#)
- **Truck gate hours:** For the latest gate hours, check the latest [GCT Deltaport](#) or [GCT Vanterm](#) gate hours
